INTRODUCTION

This is the seventh annual report on compliance and enforcement of the *Forest Practices Code of British Columbia Act* (the Code) and its regulations, which came into effect on June 15, 1995. The report gives an objective picture of compliance and enforcement activities from April 1, 2001 to March 31, 2002 and provides a follow-up to annual reports previously published.

This report contains statistics recorded by the British Columbia Ministry of Forests (MOF). The report covers compliance and enforcement activities with respect to forest practices carried out by major licensees, small business licensees, woodlot licensees and mining, petroleum and natural gas companies holding licences to cut.

> Electronic copies of this report are available from the Ministry of Forests, Compliance and Enforcement Branch, or by accessing the government Internet page:

Statistical Summary

Most of the statistics contained in this report were generated from two information systems managed by the Ministry of Forests. The Enforcement Action, Administrative Review and Appeal Tracking System (ERA) serves as the Ministry's record of enforcement activities; ERA documents cases that arise from alleged contraventions of the acts and regulations enforced by the Ministry, including the issuance of tickets, enforcement actions taken, and cases that are appealed. The Compliance Information Management System (CIMS) serves as the Ministry's record of inspection activities and compliance actions.

Key Statistics

Key statistics from April 1, 2001 to March 31, 2002 are:

- 25,154 **Inspections** were completed.
- 596 **Enforcement Actions** were taken.
- 15 **Stop Work Orders** were issued.
- 1,651 **Compliance Actions** were taken.

Violation Tickets and Administrative Penalties

The total monetary value of penalties and violation tickets issued under the Code during the reporting period is:

Violation tickets issued	111
Monetary amount of tickets	$22,604.00
Administrative penalties levied	199
Monetary amount of penalties	$894,085.49

ADMINISTRATIVE REVIEWS

During the reporting period, there were 25 requests for administrative reviews of enforcement decisions made under the Code; 2 requests for reviews were withdrawn. A total of 27 administrative reviews were heard. Twenty-seven review decisions were released during the reporting period:

16 confirmed the original decision being appealed

1 rescinded, overturning the original decision

8 varied, meaning that the review panel changed the original decision

2 referred with direction, meaning that the original decision-maker was asked to redo the decision, considering the direction provided by the review panel.

For information on appeals filed with the Forest Appeals Commission, see:
http://www.fac.gov.bc.ca

PROSECUTIONS

Alleged offences under the Code led to a number of provincial court cases. In 2001, the British Columbia Attorney General successfully prosecuted three cases, one of which resulted in a fine, and two of which resulted in jail sentences (these included charges under the Criminal Code of Canada).

Commonly Asked Questions

What are inspections?

Inspections are an examination of activities or practices, and are used to determine whether the forest practices are carried out in compliance with statutory requirements. Inspections cover the obligations of both the licensees and the government.

What does a contravention mean?

A contravention is where an individual or company who has an obligation under the law has been determined or found to have acted in such a manner as to have violated the law.

The violation or infraction of the law is punishable by an enforcement action (e.g., monetary penalty, fine or remediation) with the penalty, fine or imprisonment not exceeding a specified amount or time period.

What are compliance actions?

Compliance actions are used when an official has reasonable grounds to believe a contravention has occurred, or may be about to occur, but in situations where enforcement actions are not warranted. Compliance actions include warning tickets and compliance notices.

What is a Stop Work Order?

Stop Work Orders are used by an official to stop a forest practice that the official believes is in contravention.

What are enforcement actions?

Enforcement actions are used when an official determines that legislation requirements have been contravened and a formal sanction is warranted. Enforcement actions include violation tickets, monetary penalties, remediation orders, licence suspension, licence

cancellation, small business disqualification and orders to vacate.

Parties subject to enforcement actions have an avenue to challenge or appeal the action.

What does it mean if a licensee is given a monetary penalty?

Monetary penalties are one of the administrative remedies available under the *Forest Practices Code of British Columbia Act*. The fact that a licensee has been assessed a monetary penalty means that a senior government official has determined that the licensee has failed to meet a requirement of the Code.

Monetary penalties (like other administrative remedies such as stop work orders and remediation orders) are used to ensure the licensee bears the risk of any failure to meet a Code requirement. They can also be used as a disciplinary measure if the failure to meet the Code is caused by carelessness or misconduct.

However, monetary penalties should not be confused with fines that can be imposed by a Court if a licensee is prosecuted and convicted for an offence.

When are licensees held accountable?

Licensees are always accountable for any contravention of the Code. Any licensee who contravenes the Code may be required to remedy the contravention or to compensate the Crown for the contravention.

Administrative remedies, including monetary penalties, are used to ensure this is done. In addition, such remedies are used to ensure the licensee does not profit from the contravention.

Finally, if a contravention of the Code occurs as a result of carelessness or intentional misconduct, increased monetary penalties can be imposed as a deterrent measure.

When are prosecutions recommended?

Prosecutions may be recommended where investigations identify the person(s) responsible:

- for unauthorized harvest;
- for theft;
- for other contravention(s) of the Code;
- is willful or reckless;
- is a repeat offender; or
- has caused significant damage.

Prosecutions are recommended when it is in the public interest to prosecute, and when there is a reasonable chance of the prosecution resulting in a conviction.

The final decision as to whether or not to prosecute lays solely with Crown Counsel (the Ministry of Attorney General).

What is a violation ticket?

A violation ticket is a form of prosecution. Tickets carry set fines for specified offences, and once a ticket has been issued no other form of prosecution for the offence for which the ticket was issued can occur.

Due diligence and officially induced errors are defences for violation tickets.

What are the unauthorized harvest statistics?

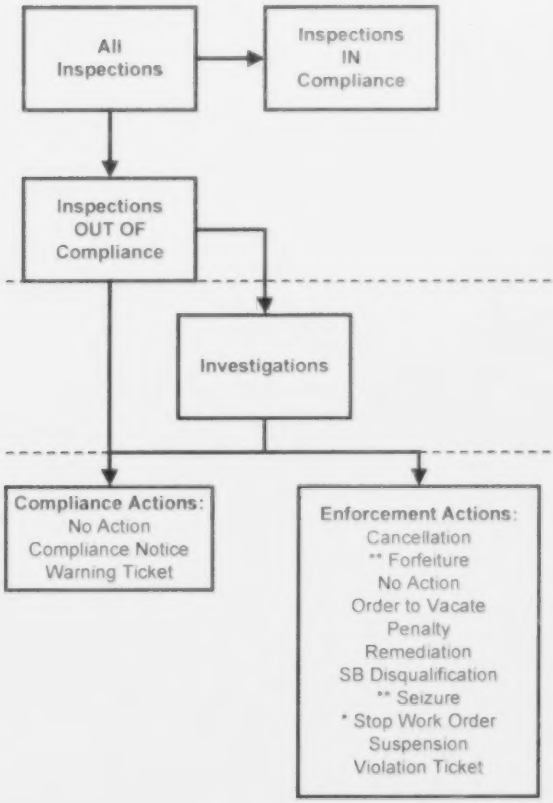
From April 1, 2001 to March 31, 2002, penalties for unauthorized harvesting ranged up to $167,785, and totaled $643,403.

During the same period, there were 48 Violation Tickets issued by the Ministry of Forests for various incidents of unauthorized harvesting, with fines totaling $8,304.

Compliance & Enforcement Statistics for the Forest Practices Code

Overview of Process Leading to C&E Actions

The chart below illustrates the process from inspections to compliance and enforcement actions.



Inspections are conducted to determine compliance with the Code. Where an inspection identifies a problem, it may be dealt with in the field through a compliance action, or may require further investigation. Inspections may identify one or more potential contraventions of the Code.

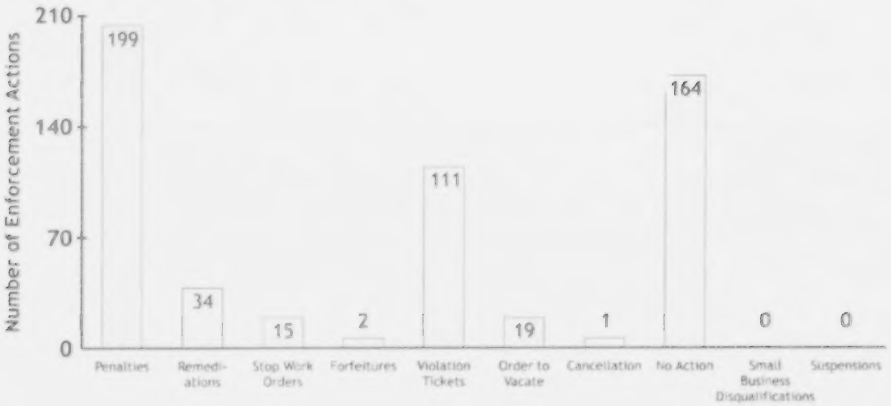
Investigations generally result from potential Code contraventions identified through inspections. In some cases, investigations may result from other causes, such as public tips about alleged non-compliance.

Contraventions can be addressed either through compliance actions or enforcement actions. One contravention may result in more than one action being taken; alternately, several contraventions may be addressed through a single action.

* Stop Work Orders are not formal findings of contravention.
** Seizures and Forfeitures are not necessarily findings of contravention.

PROGRAM STATISTICS

Provincial Total of Enforcement Actions

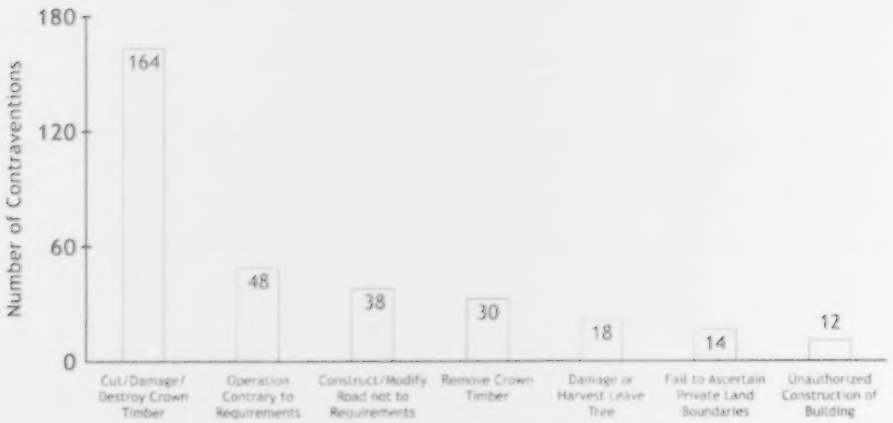


This graph shows the frequency of enforcement actions made to address contraventions. Not included in this graph are 51 Seizures. Stop Work Orders are not considered formal findings of contravention. Seizures and Forfeitures are not necessarily considered findings of contravention.

Provincial Total of Compliance Actions

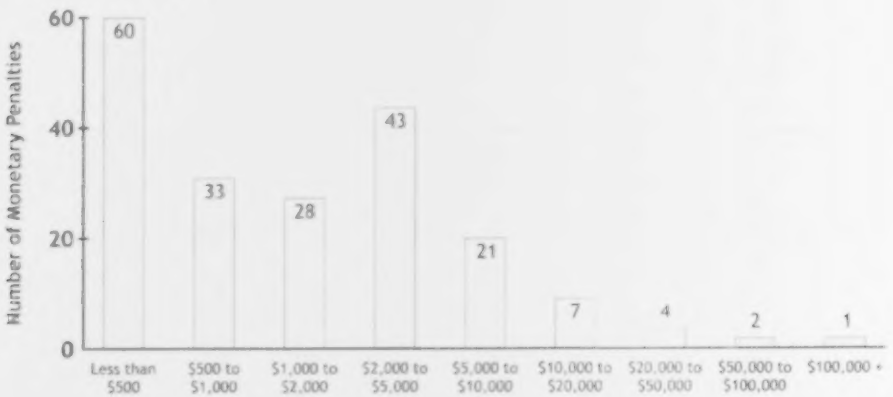
This graph shows the number of compliance actions taken to address alleged contraventions.

Sections of the Code Most Often Contravened



This graph shows the sections of the *Forest Practices Code of British Columbia* most often contravened; based on enforcement actions as reported in ERA.

Summary of Monetary Penalties

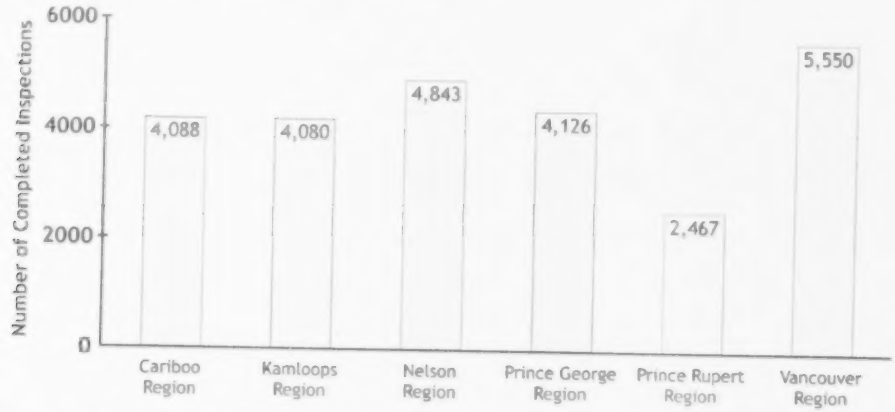


This graph shows the number and range of monetary penalties that have been levied under the *Forest Practices Code of British Columbia* for the reporting period.

COMPLIANCE & ENFORCEMENT STATISTICS BY REGION

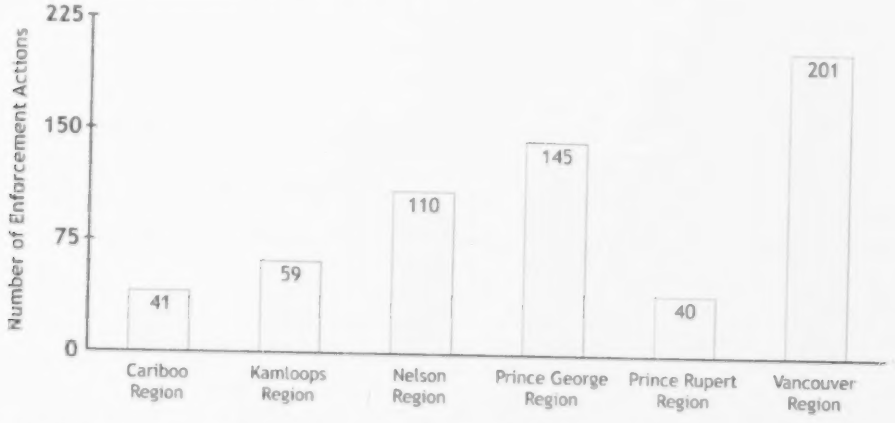
The province is divided into six administrative units called forest regions, each of which is further sub-divided into between five to nine forest districts. See Appendix 3 for a list of these regions and districts, along with their codes. See Appendix 4 for a map of the regional and district boundaries.

Number of Completed Inspections by Region



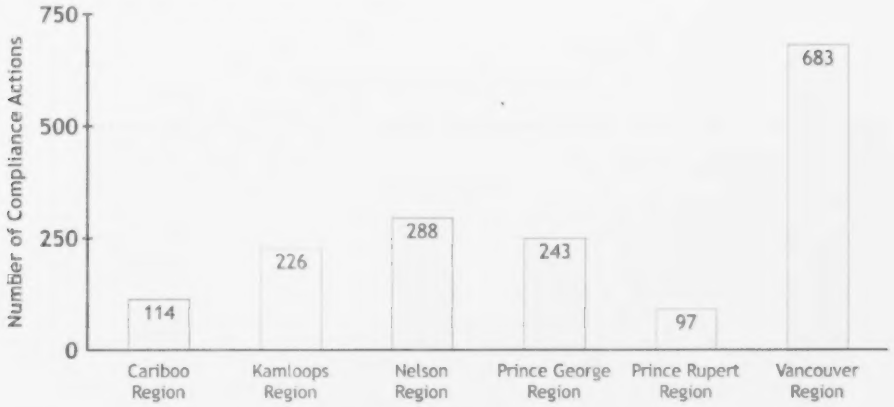
This graph lists, by forest region, the number of completed inspections conducted by ministry personnel.

Number of Enforcement Actions by Region



The chart shows, by forest region, the number of enforcement actions taken against contraventions.

Number of Compliance Actions by Region

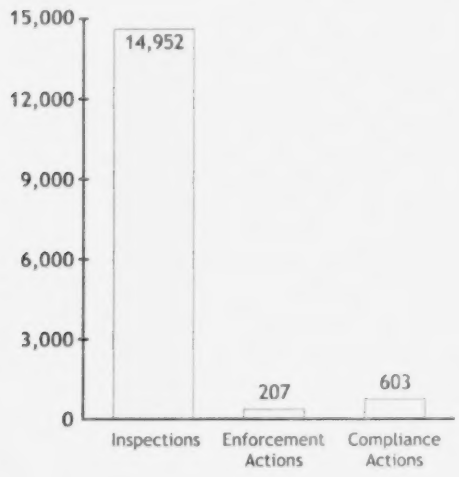


This graph show, by forest region, the number of compliance actions taken to alleged address contraventions.

OVERALL STATISTICS BY TENURE TYPE

These tables show by tenure group the number of Inspections completed, the number of Enforcement Actions, and the number of Compliance Actions.

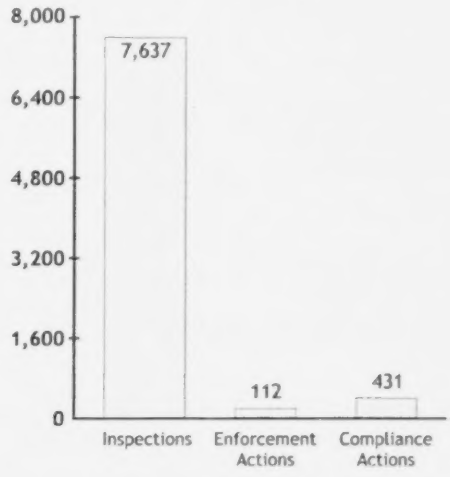
Major Licensees



Volume Billed: 56,096,785 m^3

- Tree farm licences
- Timber licences
- Forest licences
- Pulpwood agreements
- Major timber sale licences

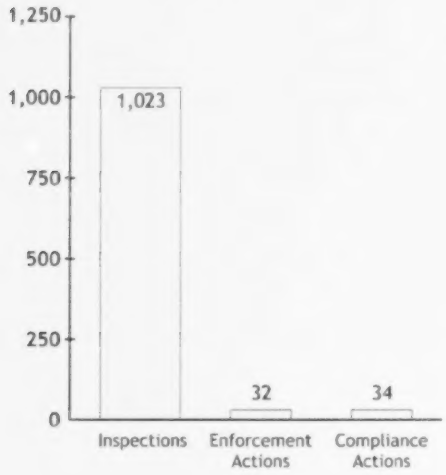
Small Business Licensees



Volume Billed: 8,777,090 m^3

- Competitive timber sale licences
- Value-added timber sale licences
- Direct award timber sale licences
- Roads associated with small business

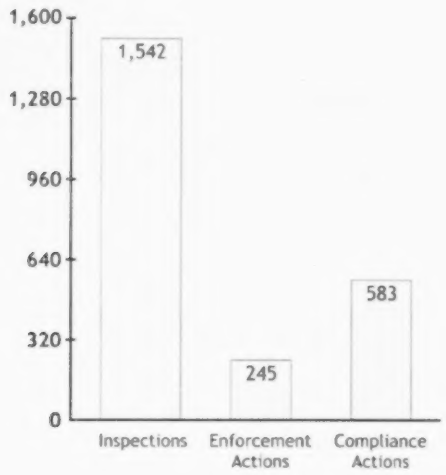
Woodlot Licensees



Volume Billed: 1,197,598 m^3

- Woodlot Licences
- Community Forest Licences
- Roads associated with both

Other



Volume Billed: 1,432,374 m^3

- Licences to cut
- Special use permits
- Free use permits
- Christmas tree permits
- Private lands
- Grazing permit/Licence
- Road use permit
- Log salvage

Note: The *Other* category includes other licences and permits, as well as non-tenure holders (in previous annual reports, these were reported as two separate categories).

Appendix 1

Enforcement Actions against Major Licensees

This appendix lists enforcement actions that occurred within the reporting period, regardless of when the actual contravention occurred.

Shown in alphabetical order are forest tenure holders with major licences (or that recently held major licences) that billed volumes of more than 5,000 cubic metres annually. The header lists the licensee, the volume (in cubic metres) of Crown timber billed by the licensee and the number of compliance inspections as recorded in CIMS. Under each header is a listing of enforcement actions as determined by a senior official or as determined by an official through the issuance of a violation ticket. Note that a portion of a licensee's volume may have been harvested by a separate company or contractor; the following listings do not include enforcement actions which might have been carried out against the activities of a separate company.

Note also that in some cases, enforcement actions have been taken against companies which had no volume of timber during the reporting period; these relate to contraventions that occurred at an earlier date when the company had a timber volume.

Enforcement actions include violation tickets, monetary penalties, remediation orders, licence suspension, licence cancellation, small business disqualification and orders to vacate. Stop work orders are enforcement actions that are not formal findings of contravention.
